

# AlphaKids GO!

Summer  
School  
Pacing Plan  
4 or 6 Weeks

## Pacing Overview:

- ▶ Displayed as 60- to 90-minute workshop sessions, 4 days a week, for 4 weeks or 6 weeks.
- ▶ Pacing can be adjusted as needed.

## Classroom Management:

- ▶ Choose books that support your district's scope and sequence or that reflect students' reading ability and interests. Each Guided Reading Level (GRL) contains 18 or 24 books. See the Scope & Sequence in the *Teacher Strategy Handbook* for book titles, GRLs, and Lexile® measures.
- ▶ Each week, read books together as a whole class or organize the class into small groups based on reading level. Assign a GRL for the week to each small group. Allow at least one week for a student to cover three to four books in a GRL with one workshop session for each book. See Sample Pacing Plans.

## Instructional Support:

- ▶ Use a book's individual Lesson Plan (LP) pages to form your instruction. The Lesson Plans provide flexibility to organize the class in a multitude of ways. For example, for the three readings of the book in the During Reading section, you may decide to do a teacher-led first read, small group second read, and individual or partner third read.
- ▶ When appropriate, incorporate English Language Learner strategies within the lesson.
- ▶ To monitor fluency, complete a Running Record (*Teacher Strategy Handbook*) with each student once per week. The plan below suggests when to incorporate Running Records into the workshop sessions.

## Sample Pacing Plans:

The examples provided show how a class might be organized into three guided reading groups based on reading level. Each group covers up to four books per week and progresses through the GRLs at different rates. One group might remain at the same GRL for all four or six weeks, while another group moves from one GRL to the next each week. AlphaKids GO! has plenty of titles to allow for these differences.

In the examples below, the suggested titles for each week are roughly in order of difficulty within a GRL. The order takes into consideration the book's Lexile® measure and genre or topic. Because Fiction may be more accessible than Nonfiction to early readers, Fiction books are read before Nonfiction when introducing a GRL.
