

Summer School Achievement Program

Designed specifically for summer school reading comprehension

The **Summer Achievement Programs** are complete and comprehensive programs that provide focused reading comprehension instruction through the use of short, complex texts or Leveled Readers and accompanying text-specific selected and constructed response questions. Blending current research with best practices, the **Summer Achievement Programs** feature explicit and easy-to-use instruction. Fully worked-out, explicit lesson plans, appropriate for both new and experienced teachers, align to the CCSS, and contain scaffolded instruction for all levels of students.

Two Options—Purchase the Program that Works for You:

Passages Program

- Short, Complex Fiction and Nonfiction Texts that cover a wide range of captivating stories and topics
- Selected and Constructed Questions: Promote effective test-taking practices.
- Assessments: Targeted assessment options monitor students' progress with Pre- and Post-Diagnostic Assessments, and Selected and Constructed Response questions.

Leveled Readers Program

- Science and Social Studies Standards-Based Leveled Readers: Designed to provide authentic opportunities to apply each comprehension skill
- Practice: The Student Practice Book contains Blackline Master Worksheets.
- Assessment: Targeted assessment options monitor students' progress with Pre- and Post-Diagnostic Assessments, Constructed Writing Response Assessment and progress monitoring activities.

Making Sense of Levels

Sundance Newbridge stands behind its levels as good guidelines; however, teachers must use them as a point of reference and set their own level standards for their students.

† Guided Reading Levels (GRL 1996/2001) use the text characteristics described by Fountas and Pinnell in *Guided Reading* (Heinemann 1996) and *Guiding Readers and Writers, Grades 3–6* (Heinemann 2001). Guided Reading Levels (GRL 2012) use the text characteristics described by Fountas, Irene C. & Pinnell, Gay Su and Heinemann, Portsmouth, NH, 2012.

* Early Intervention Levels (EIL) are based on Reading Recovery[®], a registered trademark of the Ohio State University.

§ Developmental Reading Level Assessment (DRA), developed by Joetta Beaver, is a method of assessing and documenting achievement within a literature-based instructional program.

‡ The Lexile Framework[®] for Reading is a scientific approach to reading measurement, providing a common scale for matching reader ability and text difficulty. This allows educators and parents to quickly estimate expected reading comprehension and monitor progress.

Smart solutions for the classroom

Let us help you make the transition between your current literacy practices and the new best practices for Language Arts instruction and assessment mandated by the **Common Core State Standards**.

Here's How:

- With thousands of carefully leveled readers that expose students to a wide variety of **Informational and Narrative** texts that contain a range of text difficulties and lengths.
- With systematic and explicit programs that teach the **Foundational Reading Skills**.
- With authentic literature that engages students in reading high-quality texts **Closely and Critically**.
- With multi-media formats to build **Fluency**.
- With instruction and activities to teach **Grammar and Language Conventions**.
- With **Vocabulary Instruction** that provides word-solving strategies and academic vocabulary development across subjects.
- With **Writing Instruction** and opportunities for students to write in response to reading across the curriculum.

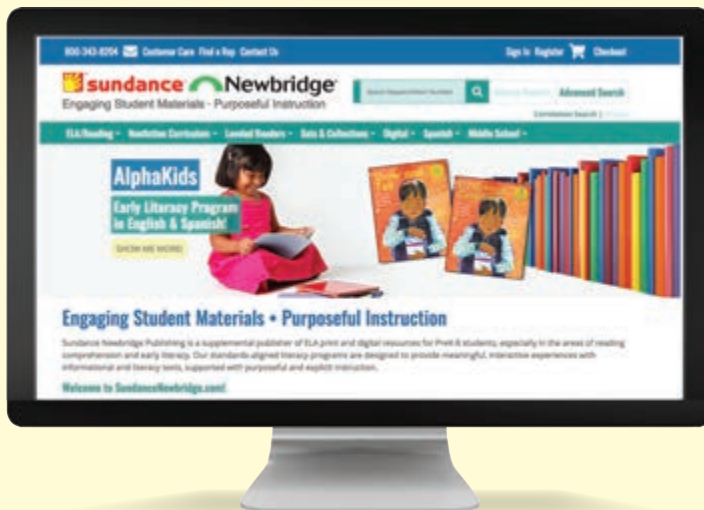

Smart Word: Extra Vocabulary Instruction and Focus

Smart Word vocabulary cards give students the rich, robust vocabulary instruction needed for success. Smart Word vocabulary cards accompany almost every leveled reader 6-Pack and supplement your literacy teaching. Engaging and effective, these four-sided cards translate best vocabulary practices into routines and activities. Plus, each card gives your Spanish-speaking English Language Learners a powerful linguistic support system.
